Innocity

TiE Rajasthan announces a strategic partnership with CIIE (Centre for Innovation, Incubation & Entrepreneurship at IIM Ahmedabad) represented by Startup Oasis in Rajasthan. CIIE incubation & accelerator platform is called Innocity Jaipur that will be exclusively powered by TiE Rajasthan.

InnoCity is a Lean and Impactful startup incubation and acceleration platform where on-demand support is provided to early stage regional startups through pointed, meaningful and custom knowledge and mentoring sessions, supplemented by ongoing hand-holding and network connects. It is not implemented by a single organization but by a combination of startup ecosystem players, each playing to its strengths and together ensuring holistic and end to end support for early stage regional startups.

InnoCity is also not a "one sized fits all" program with a definite start and end, but a platform using which the startup can create its own journey and process of growth, depending on its unique situation, stage, context, domain etc. It is hyper local! Startup support is real, physical and through entities that are well grounded in the city ecosystem.

InnoCity is also scalable. A different set of ecosystem players in a different city can also run an InnoCity for that city.

TiE Rajasthan will support the development of Innocity Jaipur platform in a structured manner through various programmes like Booster Pitches, Mentoring Clinics, Diagnostic Panel & Innocity Pitch.
